Ages & Stages Third Edition Results

Normative/Average score, based on research done by the publisher of ASQ-3, shows that 52% are Typical, 32% Monitor, and 16% Referred

**Typical:** The child's score indicates his/her development is on track at this time.  
**Monitor:** The child's score is 1.0-2.0 standard deviations from the mean and indicates that his/her development should be monitored further over time through periodic screenings.  
**Refer:** The child's score is 2.0+ standard deviations from the mean and the family is provided with information to access further evaluation from a community agency.

Ages & Stages Questionnaires Social/Emotional Results

Normative/Average score, based on research done by the publisher of ASQ-SE, shows that 80% are Typical, 20% Referred
